Manufacturer's Declaration of Compliance with the Requirements of the PPWR

Dear Sir or Madam,

We hereby confirm that the paper and cardboard packaging manufactured by our company is developed and produced in accordance with the applicable legal requirements of **Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)**.

We continuously monitor regulatory requirements and ensure that our products comply with the applicable provisions of the PPWR as well as the associated delegated acts, implementing acts and harmonized European standards.

In particular, we confirm the following:

- The packaging meets the applicable requirements regarding the limitation of hazardous substances in accordance with PPWR
- The sum of concentration of heavy metals: lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr VI) does not exceed the legal limit of **100 mg/kg**.
- Our packaging is designed and manufactured in accordance with the requirements for packaging minimization, recyclability and material efficiency.
- Where applicable to the respective product, our packaging complies with current legal requirements regarding **per- and polyfluoroalkyl substance (PFAS)**. We neither specifically use PFAS to achieve functional properties, nor do we intentionally add them, unless this has been expressly agreed upon with the customer and is permitted by law.
- We continuously monitor current European regulations and restrictions regarding PFAS and adapt our products and raw material requirements in accordance with the applicable legal acts.
- Where applicable to the respective products, labeling, information and documentation requirements are met in accordance with legal requirements.

MORE ECO LESS COST

In the development and manufacture of our packaging, we adhere in particular to the following European standards, to the extent that they apply to the respective product:

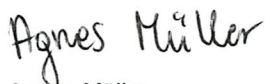

- EN 13427 – Requirements for the application of European standards in the field of packaging and packaging waste
- EN 13428 – Prevention through reduction of packaging quantities
- EN 13430 – Requirements for packaging intended for material recycling
- EN 13431 – Requirements for packaging intended for energy recovery
- EN 13432 – Requirements for packaging intended for recovery through composting and biodegradation (where applicable)

Compliance with legal requirements is ensured as part of our quality management system through supplier qualification, raw material specifications, incoming goods inspections and the necessary analytical tests.

Upon request, we are happy to provide product-specific proof of conformity or supplementary technical documentation in accordance with legal and contractual agreements.

This declaration applies to paper packaging supplied by our company and is based on the currently applicable framework. We continuously monitor changes in legal or regulatory requirements and implement them within the specific timeframes.

Sincerely,

Agnes Müller
CEO
